

July 12, 2013

Dear George Ligon,

While surfing on Internet we saw and appreciated your images published on your website and we would like to invite you to participate at this important exhibition organized by Trevisan International Art in Bologna, Italy. We believe that your vibrant, intense, refined photographic research together with your creative imaginary, will add personal and unique inputs to this upcoming exhibition. Thanks to a great demand by the public and artists, from 16 till 28 November 2013, we will organize another mini-format exhibition titled 'Variations', a title that perfectly suits the varied creativity of artworks on display in these shows. 'Variations' will be another singular TIA exhibition of mini-format where artists will release all their creativity showing four (4) small works of the size of cm 20x20 (or 8x8 inches).

This show will gather artists who surely will enjoy confronting themselves with such a small but lovely size. This will be a high class exhibition in which each piece will turned out to be a precious jewel to be discovered and admired for its uniqueness, as well as seen in comparison with the other works.

Naturally, we will publish a refined catalogue of the exhibition (cm 24x17) where each artist will be presented with two pages, including a short statement and a photo of one artwork. As the sizes of the works, of course, also participation costs will be reduced. We had already five editions of this show, and we've always got many requests from artists and public to repeat it with the same format, and the Galleria De Marchi in Bologna, precious partner, will be glad to host again this singular and extraordinary exhibition of little treasures. You can see some photos on previous events on our website (in the Event section) and even a video on YouTube of our last edition (<http://youtu.be/XhVE44sPorw>). Bologna will play a perfect host to the exhibition: a city of great cultural and artistic vitality, among the most imposing and picturesque in Italy, with its magnificent palaces, long colonnaded streets, mediaeval towers and the warm colour of its buildings.

Renewing once more my appreciation for the high level of your photos I would like to inform you can visit the section on our website dedicated to "Variations" event where you can find all detailed information regarding the exhibition including regulations and application:

<http://www.trevisan-international-art.com>

<http://www.trevisan-international-art.com/events.html> (below the photos of different events at the top, you will find the section dedicated to the event)

*Exhibiting at 'Variations' will grant you to be eligible to become artist of our TIA*

*website [www.trevisan-international-art.com](http://www.trevisan-international-art.com). The unique attraction of TIA lies in its networking with and amongst exceptionally gifted contemporary visual artists (painters, sculptors, photographers) from many unique yet diverse cultural and geographical backgrounds. We scrutinize our artists very closely before admission to a Trevisan International exhibition and ongoing representation through our organization. This means that our presentation and exhibitions are always of a high standard and that our artists can feel confident that they are being presented correctly. Artists will benefit and enjoy the enrichment through our organization, our global network and the promotional aspects.*

Please feel free to get in touch with us for further details or any questions you'd like to ask us. I will be happy to help.

Kind regards

Paola Trevisan
